**Title:** Gregg River Mine West Extension. Environmental impact assessment (EIA) report Gregg River Mine West Extension

**Library:** NEOS (includes U of Alberta)

**Publication Information:** Hinton, Alta. : Luscar Ltd., 1999-

**Physical Description:** v. : ill., maps ; 29 cm.

**Contributors:** Alberta. Alberta Environment.  
Alberta. Environmental Assessment and Strategy Division.  
Luscar Ltd.  
Alberta Energy and Utilities Board.

**Other Titles:** Environmental impact assessment (EIA) report Gregg River Mine West Extension

**Notes:** Submitted to Alberta Energy and Utilities Board and Alberta Environment, Environmental Assessment & Strategy Division.

**Contents:** [Vol.1] Parts A-J -- [vol.2] Appendices 1-4; Consultant reports 1-5 -- [vol.3] Consultant reports 6-15 -- [vol.4] Consultant reports 16-23. Consultant report (CR) 1. Gregg River Mine West Extension area preliminary geotechnical investigation -- CR 2. Botanical, vegetation and ecological resource survey of the proposed Gregg River Mine West Extension area -- CR 3. Vegetation analysis of reclaimed sites on the Gregg River Mine -- CR 4. Detailed soil survey and soil handling plan of Gregg River Mine West Extension area and road corridor -- CR 5. Soil reclamation assessment of the Gregg River Mine 1982-1997 -- CR 6. Surface water hydrology study and environmental impact statement for the west extension project at the Gregg River Mine. CR 7. Surface water quality Gregg River Mine West Extension area -- CR 8. Baseline fisheries investigations in the Drinnan Creek Basin - 1997 and 1998 -- CR 9. Environmental impact statement for fisheries for the Gregg River Mine West Extension -- CR 10. Historical resources impact assessment -- CR 11. Assessment of community, land & resource use impacts resulting from the Gregg River Mine West Extension -- CR 12. Economic impact assessment of the Gregg River Mine West Extension -- CR 13. Noise assessment of the proposed Gregg River Mine West Extension. CR 14. Air quality assessment for the west extension project at the Gregg River Mine, Alberta -- CR 15. Assessment of impacts of the proposed Gregg River Mine West Extension area on forestry resources -- CR 16. Baseline hydrogeological conditions in the West Extension area, volume 1: text, tables and figures -- CR 17. Baseline hydrogeological conditions in the West Extension area, volume 2 -- CR 18. Environmental impact assessment - groundwater, West Extension Project -- CR 19. Harlequin duck survey of Drinnan Creek and adjacent tributaries proposed West Extension Gregg River Mine -- CR 20. Specific and cumulative impact statement for mammalian carnivores and small animals. CR 21. Rock drain considerations at the Gregg River Mine - West Extension -- CR 22. Gregg River Mine West Extension area wildlife assessment -- CR 23. An appraisal of underground mining potential at Gregg River Mine and West Extension area.

**Title:** Northern forested wetlands : ecology and management / edited by Carl C. Trettin ... [et al.].

**Library:** NEOS (includes U of Alberta)

**Publication Information:** Boca Raton : CRC, c1997.

**Physical Description:** 486 p. : ill., maps ; 24 cm.

**Contributors:** Trettin, Carl C.

**Notes:** Includes bibliographical references and index.

**Contents:** Ch. 1. Forested Northern Wetlands of North America / Thomas E. Dahl and Stephen C. Zoltai -- Ch. 2. Status and Trends of Forested Wetlands in the Northern United States / W. E. Frayer -- Ch. 3. Forested Mires as a Renewable Resource - Toward a Sustainable Forestry Practice / Juhani Paivanen -- Ch. 4. Policy for Conservation of the Functions and Values of Forested Wetlands / Clayton D. A. Rubec -- Ch. 5. A Comparison of Wetland Mapping Using SPOT Satellite Imagery and National Wetland Inventory Data for a Watershed in Northern Michigan / Trae A. Forgette and John A. Shuey -- Ch. 6. Stand Structure, Dynamics, and Diversity of Virgin Forests on Northern Peatlands / Yrjo Norokorpi, Erkki Lahde, Olavi Laiho and Timo Saksa -- Ch. 7. Relationships Between Groundwater Characteristics, Vegetation, and Peatland Type in the Hiawatha National Forest, Michigan / Gregory M. Kudray and Margaret R. Gale. Ch. 8. Late Holocene Paleoecological Reconstruction of a Coastal Peat Bog along the St. Lawrence Maritime Estuary, Quebec / Michelle Garneau -- Ch. 9. Changes in Species Diversity in Peatlands Drained for Forestry / Harri Vasander, Raija Laiho and Jukka Laine -- Ch. 10. Undergrowth as a Regeneration Potential on Finnish Peatlands / Olavi Laiho, Erkki Lahde, Yrjo Norokorpi and Timo Saksa -- Ch. 11. Plant Reintroduction on a Harvested Peat Bog / Francois Quinty and Line Rochefort -- Ch. 12. A Ground-Penetrating Radar Study of Peat Landforms in the Discontinuous Permafrost Zone Near Fort Simpson, Northwest Territories, Canada / Inez M. Kettles and Stephen D. Robinson -- Ch. 13. Hydrological Processes of Natural, Northern Forested Wetlands / E. S. Verry -- Ch. 14. Hydrology of Drained Forested Wetlands / Stanislav E. Vompersky and Andrej A. Sirin -- Ch. 15. Hydrological-Chemical Interactions in Headwater Forest Wetlands / Alan R. Hill and Kevin J. Devito. Ch. 16. Application of Modeling Methods to Study Water Budgets in Forested Peatlands / J. Ruseckas -- Ch. 17. Water Table Fluctuations Following Clearcutting and Thinning on Wally Creek Wetlands / Vincent Roy, John K. Jeglum and Andre P. Plamondon -- Ch. 18. Effects of Engineered Drainage on Water Tables and Peat Subsidence in an Alberta Treed Fen / G. R. Hillman -- Ch. 19. Wetland Effects on Hydrological and Water Quality Characteristics of a Mid-Michigan River System / T. M. Tompkins, W. W. Whipps, L. J. Manor, M. J. Wiley, C. W. Radcliffe and D. M. Majewski -- Ch. 20. Relationships Between Groundwater Level and Temperature in Peat / Hannu Hokka, Timo Penttila and Matti Siipola -- Ch. 21. Factors Affecting Sediment Accumulation in Sedimentation Ponds / Samuli Joensuu -- Ch. 22. The

Dynamics of Peat Accumulation by Mires of Northern Eurasia During the Last 3000 Years / Vladimir A. Klimanov and Andrej A. Sirin. Ch. 23. The Effect of Peatland Forestry on Fluxes of Carbon Dioxide, Methane, and Nitrous Oxide / Hannu Nykanen, Jouko Silvola, Jukka Alm and Pertti J. Martikainen -- Ch. 24. Nutrient Removals Associated with Harvesting Peatland Black Spruce Forest / Y. Teng, N. W. Foster, P. Hazlett and I. K. Morrison -- Ch. 25. The Effects and Fate of Inorganic Nitrogen Inputs to Oligotrophic Peat Soils / Berwyn L. Williams and Deborah J. Silcock -- Ch. 26. Forest Management Impacts on Undrained Peatlands in North America / D. F. Grigal and K. N. Brooks -- Ch. 27. Peatland Forestry in Finland: Problems and Possibilities from the Nutritional Point of View / Seppo Kaunisto -- Ch. 28. Forestry Best Management Practices for Wetlands in Minnesota / Michael J. Phillips -- Ch. 29. Effects of Forest Management on Wetland Functions in a Sub-Boreal Swamp / C. C. Trettin, M. F. Jurgensen, J. W. McLaughlin and M. R. Gale. Ch. 30. Mound Characteristics Affect Growth and Survival of Norway Spruce Seedlings / Lena Akerstrom and Bjorn Hanell -- Ch. 31. Greenhouse Impact of a Mire After Drainage for Forestry / Jukka Laine, Kari Minkkinen, Jukka Sinisalo, Ilkka Savolainen and Pertti J. Martikainen -- Ch. 32. Response of Stand Growth and Water Table Level to Maintenance of Ditch Networks within Forest Drainage Areas / Erkki Ahti and Juhani Paivanen -- Ch. 33. Comparative Growth of Peatland, Upland, and a Superior Black Spruce Stand in Ontario / B. Payandeh, V. F. Haavisto and P. Papadopol.

Aurora Mine -- [v.4] - Ambient air quality observations in the Athabasca Oil Sands Region -- [v.5] - Ambient air quality predictions in the Athabasca Oil Sands Region -- [v.6] - Aquatic baseline report for the Athabasca, Steepbank and Muskeg Rivers in the vicinity of the Steepbank and Aurora Mine / Golder Associates -- [v.7] - Aurora Mine Project historical resources baseline study / Brian Reeves -- [v.8] - Baseline non-traditional resource use in the Aurora Mine EIA local study area and the Syncrude/Suncor regional study area -- [v.9] - Baseline resource use in the Aurora Mine environmental impact assessment regional study area / Fort McKay Environment Services Ltd. -- [v.10] - Baseline soil survey, soil interpretations and terrain analysis of the Aurora Mine local study area -- [v.11] - Baseline vegetation inventory and productivity assessment for the Syncrude Aurora Mine EIA local study area -- [v.12] - Climate and surface water hydrology baseline data for

Aurora Mine EIA -- [v.13] - The community of Fort McKay traditional uses of the renewable resources on the proposed Syncrude Aurora Mine site local study area -- [v.14] - Environmental impact assessment baseline noise survey & noise impact assessment for Aurora Mine / Stephen Yee -- [v.15] - Report on technical supporting document hydrogeology baseline study Aurora Mine -- [v.16] Meteorology observations in the Athabasca Oil Sands Region -- [v.17] - Pollutant deposition impacts on lichens, mosses, wood and soil in the Athabasca Oil Sands area (On spine: Peace River Kraft Pulp Mill) -- [v.18] - A profile of the extended community of Fort McKay, Alberta -- [v.19] - Results of bald eagle, osprey and great blue heron nest site surveys near Fort MacKay, Alberta / Axys Environmental Consulting Ltd. -- [v.20] - Sources of atmospheric emissions in the Athabasca Oil Sands Region -- [v.21] - Survey of wildlife, including aquatic mammals, associated with riparian habitat on the Syncrude Canada Ltd. Aurora Mine environmental impact assessment local study area -- [v.22] - Vegetation types and productivity for the Aurora Mine -- [v.23] - Wildlife inventory of oil sand leases 12, 13, and 34 / Westworth, Brusnyk & Associates Ltd. -- [v.24] - Wildlife populations and habitat resources for the Syncrude local study area and the Syncrude/Suncor regional study area -- [v.25] - Report on addendum to Syncrude Aurora Mine environmental baseline program: spring and summer 1996 fisheries investigations / Golder Associates -- [v.26] - Aurora Mine supplemental information response -- [v.27] - An assessment of ground-level ozone concentrations in the Athabasca oil sands region -- [v.28] - Cree Burn Lake archaeological site complex 1996 studies: interim report -- [v.29] - Non-segregating tailings: 1995 NST field demonstration summary report -- [v.30] - Syncrude Aurora Mine Project utility corridor (roadway and pipeline) route selection -- [v.31] - Syncrude Aurora Mine Part D - intersite product and water pipelines common facilities / UMA Engineering Ltd. -- [v.32] - Aurora Mine Project update -- [v.33] - Aurora Mine additional information -- [v.34] - Aurora Mine additional supplemental information response -- [V.35] - Aurora Mine regional development update.

**Subjects:**

Environmental impact analysis -- Alberta -- Aurora Mine.  
Oil sands industry -- Environmental aspects -- Alberta -- Aurora Mine.  
Aquatic mammals -- Alberta -- Aurora Mine.  
Noise -- Environmental aspects -- Alberta -- Aurora Mine.  
Pollution -- Environmental aspects -- Alberta -- Aurora Mine.  
Bird populations -- Alberta -- Aurora Mine.  
Bald eagle.  
Animal populations -- Alberta -- Aurora Mine.  
Wildlife management -- Alberta -- Aurora Mine.  
Osprey.  
Great blue heron.  
Meteorology -- Alberta -- Aurora Mine.  
Hydrogeology -- Alberta -- Aurora Mine.

Oil sands industry -- Alberta -- Fort McMurray.  
 Soils -- Alberta -- Aurora Mine.  
 Soil surveys -- Alberta -- Aurora Mine.  
 Vegetation surveys -- Alberta -- Aurora Mine.  
 Climatology -- Alberta -- Aurora Mine.  
 Hydrology -- Alberta -- Aurora Mine.  
 Air quality -- Alberta -- Athabasca Oil Sands.  
 Fisheries -- Alberta -- Aurora Mine.  
 Athabasca Oil Sands (Alta.)  
 Muskeg River (Alta.)  
 Fort McMurray (Alta.)  
 Fort MacKay (Alta.)  
 Aurora Mine (Alta.)  
 Steepbank Mine (Alta.)

**Contributors:** Sentar Consultants.

Northern River Basins Study (Canada)

**Notes:** Cat. no. R71-49/3-27E.

**Summary:** This bibliography contains references to government and industry reports, journal articles, databases and other sources of information on instream nutrient (nitrogen and phosphorus) concentrations and loading, nutrient sources, and the effects of nutrient loading on the benthic communities and sediment oxygen demand within the three northern rivers of the study: the Athabasca, Peace and Slave rivers. A few references from outside the study area have been included because of the relevance of their findings. Each reference consists of the author, date, title, journal/book, publisher, annotation and key words. This bibliography contains 134 references in total.

**Library:** NEOS (includes U of Alberta)

**Publication Information:** Edmonton : The Study, c1992.

**Physical Description:** 1 v. (various pagings) : ill. ; 28 cm.

**Series:** Northern River Basins Study Project report. no. 3

**Contributors:** Northern River Basins Study (Canada)  
Monenco Limited.

**Notes:** Includes bibliographical references.

**Summary:** The Northern River Basins Study was initiated through the "Canada-Alberta-Northwest Territories Agreement Respecting the Peace-Athabasca-Slave River Basin Study, Phase II - Technical Studies" which was signed September 27, 1991. The purpose of the Study is to understand and characterize the cumulative effects of development on the water and aquatic environment of the Study Area by coordinating with existing programs and undertaking appropriate new technical studies. This report documents an application of modelling of the oxygen balance in the Athabasca River, northern Alberta, as affected by pulp mill effluent.

**Library:** NEOS (includes U of Alberta)

**Corporate Name:** Alberta-Pacific Environmental Impact Assessment Review Board.

**Publication Information:** Edmonton, Alta. : Alberta Environment, 1990.

**Physical Description:** [110] p. : ill., maps ; 28 cm.

**Contributors:** DeSorcy, Gerry.

Alberta-Pacific Forest Industries Inc.

Alberta. Alberta Environment.

**Notes:** Cover title.

"March 1990."

Chairman: Gerry DeSorcy.

**Summary:** Report of the Environmental Impact Assessment Review Board of the bleached kraft pulp mill proposed by Alberta-Pacific Forest Industries Inc. for the County of Athabasca, Alberta between the Athabasca, La Biche and Wandering Rivers and Pine Creek. Reviews the environmental impact of the proposed mill including the effects of timber harvesting on Indian Reserve Lands. Recommends that the mill not be built, primarily because of effluent discharge into the Athabasca-Peace River System.

**Subjects:** Wood-pulp industry -- Environmental aspects -- Alberta -- Athabasca Region.

Environmental impact analysis -- Alberta -- Athabasca Region.

Pulp mills -- Alberta -- Athabasca Region -- Public opinion.

Pulp mills -- Alberta -- Athabasca Region -- Government policy.

Water quality -- Alberta -- Athabasca River.

Athabasca Region (Alta.)

**Title:** Mitigative response to concerns regarding chlorinated organic compounds / Alberta-Pacific Forest Industries Inc.

**Library:** NEOS (includes U of Alberta)

**Publication Information:** Edmonton, Alta. : Alberta-Pacific Forest Industries Inc, 1990.

**Physical Description:** 1 v. (various pagings) : ill. (some folded) ; 28 cm.

**Contributors:** Alberta-Pacific Forest Industries Inc.

Beak Consultants.

H.A. Simons (International) Ltd.

Alberta. Alberta Environment.

**Notes:** Prepared by Alberta-Pacific Forest Industries Inc, Beak Consultants Ltd., H. A. Simons Ltd.

Submitted to Hon. Ralph Klein, Minister of the Environment.

**Summary:** Response to the Environmental Impact Assessment Review Board Report on the bleach kraft pulp mill proposed by Alberta-Pacific Forest Industries, Inc. (APFI) for the Athabasca-La Biche-Wandering Rivers-Pine Creek site in Athabasca county, Alberta. Contains a detailed description of improvements to APFI's wood pulping process, which includes features designed to mitigate the production of chlorinated organic compounds (a major concern of the EIA Review Board, who rejected the company's first proposal to build the mill).

**Subjects:** Sulphate pulping process -- Environmental aspects -- Alberta -- Athabasca Region.

Organochlorine compounds.

Wood-pulp industry -- Alberta -- Athabasca Region -- Waste disposal.

Water quality -- Alberta -- Athabasca River.

Effluent quality -- Alberta -- Athabasca Region.

Pulp mills -- Alberta -- Athabasca Region.

**Title:** Use of a battery of biological tests to assess aquatic quality in Canadian prairie and northern watersheds / by B.J. Dutka ... [et al.].

**Library:** NEOS (includes U of Alberta)

**Authors:** Dutka, B. J.

**Publication Information:** Burlington, ON : National Water Research Institute, 1988.

**Physical Description:** 23, [13] leaves : ill., map ; 28 cm.

**Series:** NWRI contribution ; 88-107

**Notes:** Summary in English and French.

**Bibliography:** p. 22-23.

**Summary:** This report contains the results of an examination of water samples, water-extracted sediments and organically-extracted sediments from Western-Canadian lakes and rivers using the "battery of tests approach" to identify degraded waters. Study areas included the Saskatchewan and Qu'Appelle River Systems in Alberta and Saskatchewan, and the Churchill River diversion route in Burntwood, Footprint and the lower Nelson Rivers in Manitoba. Sites are ranked in order of greatest concern ("hot spots").

**Title:** North Saskatchewan River : characterization of water quality in the vicinity of Edmonton (1982-83). Characterization of water quality in the vicinity of Edmonton (1982 - 1983)

**Library:** NEOS (includes U of Alberta)

**Publication Information:** Edmonton : Alberta Environment, Environmental Protection Services, Pollution Control Division, Water Quality Control Branch, 1986.

**Physical Description:** 4 v. : ill. ; 28 cm.

**Contributors:** Alberta. Water Quality Control Branch.  
Alberta. Pollution Control Division.

**Other Titles:** Characterization of water quality in the vicinity of Edmonton (1982 - 1983)

**Notes:** Filed Sept. 16, 1986 by the Hon. Mr. Kowalski.  
Includes bibliographies.

**Contents:** Overview -- pt. 1. Introduction, water chemistry, chlorophyll, bacteriology -- pt. 2. Zoobenthic surveys of spring, summer, and fall 1982 -- pt. 3. Compendium of data for Parts 1 and 2. -- [pt. 4.] Overview.

**Subjects:** Water quality -- Alberta -- Edmonton Region -- Measurement.  
Water quality -- Alberta -- North Saskatchewan River.  
Water -- Pollution -- Alberta -- North Saskatchewan River.  
Water -- Pollution -- Alberta -- Edmonton Region  
Edmonton Region (Alta.)  
North Saskatchewan River (Alta. and Sask.)

**Contents:** Session 1. Regulatory Tools: The approval process - views from all angles; The Environmental Appeals Board -- Session 2. Social Science: Growth and stewardship: exploring the natural capital policy challenges and opportunities facing Alberta municipalities; Sustainable resource and environmental management through Alberta's FireSmart Program -- Session 3. 2005 Flood Events and Water Infrastructure: June 2005 flooding - AENV response; The June 2005 floods in central and southern Alberta; The importance of an infrastructure management system -- Session 4. Perspectives on Oil Sands Region: Environmental management in Alberta's oil sand region; The importance of an infrastructure management system -- Session 5. Forest Ecology: The mountain pine beetle - scope of the problem and key issues in Alberta; The North Cabin Pipeline - a case study working together to balance resource development with environmental management; Wildlife movement corridor alteration from oil sands mining -- Session 6. Climate Change: The Montreal action plan: towards a new international climate change policy regime [sic] beyond 2012; Transportation and climate change - options for Alberta's future -- Session 7. Innovative Technologies: Facilitating environmental innovation, technology and research for a responsible western Canadian hydrocarbon energy industry; Petro-Canada reuses treated Edmonton wastewater -- Session 8. Emerging Issues and Responses on Wildlife: Caribou Landscape Management Association (CLMA) integrated planning model -- Session 9. Working Together for the Preservation of Alberta Parks: Fish Creek Provincial Park - innovations in urban green space and wetlands; For the love of Alberta's parks! -- Session 10. First Nations: Documentation and use of traditional environmental knowledge in oil sands mine planning -- Session 11. Integrated Land Management: Integrated Land Management Program (ILM); Managing human use in wildlife corridors - a case study in the Bow Valley, Alberta -- Session 12. Innovations in Waste Management: EWMCE - innovative partnership in waste management -- Session 13. Innovative Technologies: Sustainable buildings, Alberta Parks showcases LEED (trademark) certified buildings -- Session 14. Emerging Issues: No papers available -- Session 15. New Developments: Resilient forest management in Alberta - a new way of practice; EnviroVista, a program for environmental leaders -- Session 16.

Human Health and Wastewater Contaminants: Long-term human health assessment program following and [sic] accidental release of dioxins, furans and PCBs from Swan Hills Special Waste Treatment Centre 1996-2005; Out of sight, out of mind: pharmaceuticals, personal care products and other organic wastewater contaminants in Alberta surface waters -- Session 17. Focus on Partnerships: Regional environmental outcomes - a partnership approach for southern Alberta -- Session 18. Leading the Way: BC - Alberta environmental cooperation and harmonization; environmental management changes -- Session 19. Building Environmental Stewards: Affecting change - how do you encourage people to adopt sustainable behaviour; Growing together: partnerships in education; Examples of on-the-ground practice changes: AESA program successes in helping farmers & ranchers adopt environmentally sustainable agriculture practices; Alberta Water Quality Awareness Day -- Session 20. Focus on Agriculture: Developing soil phosphorus limits for Alberta's agricultural lands; Municipalities and the Agricultural Operation Practices Act (AOPA); Agriculture and Climate Information Service (ACIS) -- Session 21. Coalbed Methane - Challenge and Opportunities: Coalbed methane/natural gas in coal consultation process; Coalbed methane and groundwater; Planning coalbed methane drilling programs in environmentally sensitive areas - experiences from the Rumsey Natural Area -- Session 22: Sustainable Municipalities: Re-imagining the suburbs; Sustainable community design and development; ImagineCALGARY - a collaborative approach to developing urban sustainability strategies; Okotoks on purpose - a sustainable story -- Session 23. Focus on Water: Strategic needs for energy related water use technologies; Value of water to the Alberta economy; Town of Cochrane water conservation initiative - an important step toward watershed stewardship -- Session 24. Lake Wabamun: Situation and Response: Response to an oil spill on the shoreline of an important recreational lake in central Alberta; Alberta Environmental Protection Commission; The Lake Wabamun experience: shoreline assessment and other challenges -- Session 25. Building Environmental Stewards: Alberta's range resources management program; Every drop counts - an informed public starts with informed students -- Session 26. Focus on Lakes - Science and Stewardship: Alberta Lake Management Society - bridging the gap between academics, governments and local stewards; Alberta lakes - a legacy worth protecting -- Session 27. Leading the Way: Energy development and public safety; Greening the pages - Alberta Environment's move to responsible procurement practices -- Session 28. Biodiversity and Geology: What's up underground - appraising undiscovered earth resources for land planning and environmental stewardship at Alberta Geological Survey -- Session 29. Focus on Water Supply: Opportunistic operations of reservoirs in southern Alberta for environmental benefits; Solving Alberta's water supply shortfalls through enhanced storage - Panacea or fallacy? -- Session 30. Focus on Energy Development - Innovation and Cooperation: Upstream

oil and gas policy integration project; Canadian Clean Power Coalition - current status of clean coal studies -- Session 31. Alberta's Environment Industry: State of Alberta's environment industry and Alberta Economic Development's strategic industry focus -- Session 32. Leading the Way: CASA Flaring and Venting Project Team - from an Alberta problem to a world solution -- Session 33. Shared Governance of the Environment: Shared environmental governance -- Session 34. Irrigation - A Multi-faceted Activity: Irrigation is much more than agriculture -- Session 35. Focus on Water Management and Stewardship: Alberta Water Council -- Session 36. Leading the Way on Energy: Re-branding Alberta: Alberta's leadership role in energy policy.

 Federal Panel on Energy Research and Development (Canada)

**Notes:** On title page: [Part of Energy, Mines and Resources cost-shared Energy Conversion Program and part of the Federal Panel on Energy Research and Development (PERD)]

**Contents:** App.I - Natural wetlands for the treatment of leachate from oil sands tailings ponds / EVS Consultants -- App.II - Constructed wetlands for the treatment of oil sands waste water -- App.III - Chemical and toxicological characteristics on interstitial water and fine tails -- App.IV - Assessment of dry land reclamation using fine tails as a soil amendment -- App.V - Microbiological aspects of Suncor's reclamation program -- App.VI - Suncor/Syncrude wet landscape simulation model / Environmental Management Associates

**Subjects:** Oil sands industry -- Environmental aspects -- Alberta  
 Reclamation of land -- Alberta  
 Tailings dams -- Environmental aspects -- Alberta  
 Sewage sludge -- Environmental aspects.  
 Oil sands -- Waste disposal.  
 Reclamation of land.

Includes bibliographical references.  
English and French.

**Contents:** Keynote address. Limits of limit equilibrium analysis -- Session 1.1. Centrifuge modelling of pipeline frost heave -- 1.2. Geological controls on directionally drilled pipeline installations in northeastern Alberta -- 1.3. Horizontal directional drilling fluids from a geotechnical perspective -- 2.1. Well water quality in Canada: an overview -- 2.2. Hydrogeological investigations of municipal groundwater supply following the Walkerton e. coli tragedy -- 2.3. Microbiological quality of drinking water in Canada: an overview of the Health Canada programme -- 2.4. Changes in groundwater quality in an intensive agricultural area of southern Alberta, Canada. Session 3.1. Bioreactor landfill design and operation -- 3.2. A geographic information system (GIS) approach for quantifying source strength of methane gas at landfills -- 3.3. Hydraulic conductivity of compacted clay liners: field testing and data interpretation -- 3.4. Hydraulic conductivity of compacted clay liners at two Calgary landfill sites -- 4.1. From subsea to submerged floating tunnels -- 4.2. Boundary conditions in small-scaled tunnel excavation model -- 4.3. Ground response associated with a drill-and-blast shallow tunnel -- 4.4. 3-D analysis on the performance of a grouted tunnel. Session 5.1. Towards a regional hydrogeologic framework for groundwater development and conservation, Athabasca and Cold Lake oil sands areas, Alberta -- 5.2. The glacio-stratigraphic organization of tertiary and quaternary sediments in the Athabasca oilsands (in situ) area, Alberta: implications for groundwater exploration -- 5.3. A multidisciplinary approach to resolving complex hydrogeologic systems -- 5.4. Hydrogeology of the southeastern Athabasca area: challenges for bitumen production -- 5.5. Quaternary aquifer water level changes caused by stress changes -- 5.6. Study of chloride migration in Cold Lake, Alberta, Canada -- 5.7. Identifying the source of dissolved hydrocarbons in aquifers using stable carbon isotopes -- 5.8. Aquifer depressurization and dewatering at Syncrude's Aurora Mine - an update. Session 6.1. Pearl Harbor & Midway - lessons for geotechnical engineers -- 6.2. A case study: geoenvironmental site investigation for interchange area of Highway 15 and Trans Canada Highway 1, British Columbia -- 6.3. Baxter Bridge - a case with history -- 6.4. Effective rock blasting and vibration control program saves adjoining plant in southwest Florida - a case study -- 7.1. The future of Canadian gasoline additives from a groundwater perspective -- 7.2. Investigation of a creosote plume underneath a large tidally influenced river -- 7.3. Inhibitory effect of noncoliforms on total coliform enumeration in manure impacted groundwater -- 7.4. Identification of high-fluoride groundwater provinces, Alberta, Canada. Session 8.1. Detailed construction procedures and considerations in Syncrude's quasi-homogeneous earthfill dams -- 8.2. A geotechnical performance review of the Mildred Lake East Toe Berm -- 8.3. Monitoring the movements of Maroon Dam -- 8.4. Stability of dykes

at Seven Sisters generating station -- 9.1. Effect of plugging on pile performance -- 9.2. Interaction between end bearing and shaft-resistance of piles -- 9.3. Helical piles in soft sensitive soils - disturbance effects during pile installation -- 9.4. Performance of model tapered piles in sand. Session 10.1. Performance of a quasi-homogenous earthfill dam retaining 35 m of tailings fluid with no filters or clay core: Syncrude's highway berm -- 10.2. Investigation of groundwater flow within an oil sand tailings impoundment and environmental implications -- 10.3. Water balance for reclamation covers on oilsands mining overburden piles -- 10.4. Geotechnical aspects of several recent mine tailings impoundment failures -- 10.5. Evaluation des deformations d'un grand barrage en terre et en enrochement pendant sa mise en eau -- 11.1. Anisotropic fracture networks: a new evaluation methodology -- 11.2. Characterization of sheared joint surface degradation -- 11.3. Blast damage assessment at the Ekati[™] Diamond Mine -- 11.4. Swelling strains and movement rates in weak rocks. Session 12.1. Landslides, landslide dams, and the geomorphology of tributaries in the Peace River lowland, Alberta -- 12.2. Geomorphology and slope instability features in the Outardes delta area, Quebec, Canada -- 12.3. Slope stability - study of a real landslide in Tabriz -- 12.4. Slope stabilization using drilled shafts at CP Railway's track in southern Ontario -- 13.1. Field manifestations of gravity-driven regional flow of groundwater: theory, examples, and utilization -- 13.2. Exploring the dynamics of groundwater and climate interaction -- 13.3. Simulation of brine transport in heterogeneous media from a potash tailings pond -- 13.4. Measurement methods for evaporative fluxes over the short term. Session 14.1. The characterization of agricultural point source contaminants -- 14.2. Nitrate geochemistry of a regional aquifer in an agricultural landscape, Woodstock, Ontario -- 14.3. Groundwater transport of nutrients under an irrigated , manured field, southern Alberta -- 14.4. Groundwater nitrate concerns and nutrient management and groundwater protection programs in rural Ontario -- 14.5. Groundwater-surface water interaction and nitrate origin in municipal water supply aquifers, San Jose, Costa Rica -- 14.6. Hydraulic performance of a subsurface flow constructed wetland. Session 15.1. Effects of time on in situ test results after ground improvement - new insights from laboratory and field data -- 15.2. Maximized bearing capacity from a single geosynthetic reinforcement layer -- 15.3. Behaviour of full-scale reinforced embankments loaded to failure by a strip footing near the crest -- 15.4. Dynamic compaction of coarse-grained soils - a case history -- 15.5. Distribution of stresses and settlements below floor slabs supported by rammed aggregate piers -- 15.6. Settlement performance of shallow foundations on stone-column-improved ground -- 15.7. Reinforcement of soft cohesive soils with stone columns -- 15.8. Dynamic compaction of clay backfill in a former gravel pit for a tank farm -- 15.9. Plastic concrete elastic and viscoelastic behavior -- 15.10. Observations from grout field trials in outwash sands. Session 16.1. The multiple personalities of groundwater in modern

engineering and environmental practice -- 16.2. Aquifer vulnerability assessment: the first step in developing an aquifer management strategy for the City of Ottawa -- 16.3. Groundwater protection initiatives in Alberta -- 16.4. A regional groundwater management initiative for eastern Ontario -- 16.5. Alberta Environment's role in groundwater management in Alberta -- 16.6. A new method for calculating aquifer capability for subdivision applications. Session 17.1. The geotechnical virtual laboratory update - consolidation -- 17.2. Laboratory measurement of stresses in sand -- 17.3. Effects of aging on the strength characteristics of kaolin-cement mixture: laboratory program and preliminary results -- 17.4. Elastic-plastic deformation of dense sand at high pressure and elevated temperature -- 17.5. One-dimensional soil compression curves: mathematical description -- 17.6. Influence of particle breakage on mechanical behavior of assemblies of two-dimensional polygon-shaped particles -- 17.7. A simple experimental procedure for determining the fitting parameter,  $k$  for predicting the shear strength of an unsaturated soil. Session 18.1. Characterization of monitored natural attenuation at upstream oil and gas sites in western Canada -- 18.2. Biological activity assessment to support monitored natural attenuation at upstream oil and gas sites in Alberta -- 18.3. Natural attenuation processes in a hydrocarbon-impacted wetland -- 18.4. Natural attenuation of nitroaromatic compounds in soils and groundwater at a production plant -- 18.5. Monitored natural attenuation of diesel fuel contaminating groundwater in a bedrock formation -- 18.6. Evaluation of two techniques to estimate the mass flux of contaminants in groundwater -- Session 19.1. A proposed method for evaluating  $K_o$  in fine grained soils using CPT pore pressure measurements -- 19.2. Reduced scale testing of reinforced soil retaining walls with non-select fills. Session 19.3. The influence of reinforcement stiffness on the performance of full-scale reinforced soil segmental retaining walls -- 19.4. About applications of the dilatometer test in southwestern Ontario soils -- 19.5. Ground interaction effects in uplift pile load tests -- 19.6. Strain localization at interfaces -- Session 20.1. Costa-Canada, a Canadian contribution to the study of continental slope stability: an overview -- 20.2. High-resolution three-dimensional seismic surveying of submarine landslides: rationale and challenges -- 20.3. Submarine failures in the Strait of Georgia, British Columbia: landslides of the 1946 Vancouver Island earthquake -- 20.4. Caractérisation préliminaire du glissement sous-marin de la Pointe-du-Fort, Fjord du Saguenay, Québec Canada -- 20.5. The efficiency of a catastrophic capping layer deposited in the Saguenay Fjord during the flood of 1996, Québec. Session 20.6. The Saguenay Fjord: integrating marine geotechnical and geophysical data for spatial slope stability hazard analysis -- 20.7. Caractéristiques géotechniques et analyse du potentiel de liquéfaction des sédiments récents et post-glaciaires du Fjord du Saguenay, Québec (Canada) -- 20.8. Slope instability seismic signatures in the quaternary sediments of the St-Lawrence Estuary (Qc. Canada) -- 20.9. Revue et investigation complémentaire du site du glissement de Saint-

Jean-Vianney -- 20.10. Simulating submarine slope instability initiation using centrifuge model testing -- 20.11. Backanalysis of the 1929 Grand Banks submarine slope failure -- 20.12. Le glissement du hudson apron: un exemple d'application de la caracterisation geomecanique des mouvements de masse. Session 21.1. Flow and transport in the capillary fringe with and without surfactant effects -- 21.2. Numerical modeling of three-dimensional variably-saturated flow and transport of dissolved energetic material at an anti-tank range -- 21.3. Role of soil fractions on the contaminant migration in clay barrier -- 21.4. LNAPL migration through heterogeneous media under fluctuating water table conditions -- Session 22.1. Assessing construction and settlement-induced building damage -- 22.2. Horizontal earth pressures for a deep excavation in downtown Calgary -- 22.3. Construction induced settlement of adjacent buildings -- 22.4. A method for the symmetrical foundation plinth calculation -- Session 23.1. A framework for interpretation of instability of slope -- 23.2. A procedure to compare the results of dynamic and pseudo-static slope stability analysis. Session 23.3. Examination of instability in an unsaturated highway cut -- 23.4. Design and installation of Geobrug's Pentifix system for slope stabilization -- Session 24.1. Climate change, permafrost degradation and impacts on infrastructure: two case studies in the Mackenzie Valley -- 24.2. Geotechnical analysis of a frozen tailings dike -- 24.3. Development and application of frozen till dam core drilling method using a refrigerated fluid -- 24.4. Computation of frost table profile using green theorem -- Session 25.1. Time-lapse electrical resistivity monitoring of groundwater remediation -- 25.2. The verification of electrical resistivity imaging in the study of saline and fresh groundwater interaction at Lydden Lake, SK -- 25.3. Deriving Waxman-Smits parameters for estimating groundwater quality from in-situ electrical conductivity measurements -- 25.4. Soil characterization using static conductivity and permittivity. Session 25.5. Four electrode method for indirect measurement of soil moisture -- 25.6. Detecting ionic contaminants in water using complex permittivity -- 25.7. The use of ground penetrating radar to monitor transient water content changes during an unconfined aquifer pumping test -- 25.8. Rural water supply project: Malawi, Africa -- Session 26.1. Numerical analysis of pressuremeter test data with reference to intermediate principal stress, anisotropy and dilatancy -- 26.2. Residual deformation characteristics of sandy soils under cyclic simple shear -- 26.3. The dynamic property of Ger'ermu wind carried sand -- 26.4. The effect of drainage conditions on liquefaction response of sands -- Session 27.1. Interpretation of an aquifer test at La Grande 1 hydroelectrical project, La Grande complex, Quebec -- 27.2. Essai de pompage dans un aquifere confine soumis a des effets de maree (pumping test in a confined aquifer influenced by tidal waves). Session 27.3. Analytical solutions for two dimensional steady flow systems through concentric circles of inhomogeneous media -- 27.4. Fuzzy image method for unsteady well near a linear boundary -- Session

28.1. Investigation of hydraulic properties of regional fractured rock aquifers -- 28.2. Regional groundwater hydrogeochemistry of fractured rock aquifers in south-western Quebec -- 28.3. Groundwater recharge of fractured rock aquifers in south-western Quebec -- 28.4. Experimental study on the hydraulic, chemical and mechanical processes in rock fractures from a mine site -- Session 29.1. Imaging subsurface seepage conditions through the modelling of streaming potential -- 29.2. A spatial flux boundary model for tailings dams -- 29.3. Effects of shear strength anisotropy on stability of earth structures -- 29.4. Development of a spreadsheet for modelling SPT stress wave data. Session 29.5. Application of double-shearing model in deep excavation analysis -- 29.6. Modelisation numerique des ecoulements non satures et theorie des similitudes -- Session 30.1. Large diameter wells for groundwater remediation -- 30.2. Innovative full-scale soil and groundwater remediation at a mall dry cleaners -- 30.3. TCE recovery during in situ flushing: experimental study of the controlling parameters -- 30.4. TCE recovery mechanisms with alcohol and surfactant washing solutions in sand columns -- 30.5. A laboratory study on the degradation of gasoline contamination using Fenton's reagent -- 30.6. Effect of pH enhancement in efficiency of electrokinetic decontamination -- 30.7. Electrokinetic removal of precipitated lead from carbonate-rich illite soil -- 30.8. Using nitroaromatic compounds to investigate the reactivity of carbon on master builders granular iron: implications for contaminant degradation in permeable reactive barriers. Session 30.9. Laboratory investigations of aerobic and anaerobic monoethanolamine biodegradation -- 30.10. Evaluation of intrinsic bioremediation of btex and chlorinated solvents at an old landfill in Cold Lake, Alberta -- Session 31.1. Effects of viscous behaviour of soft foundation soils on reinforced embankments -- 31.2. Flow liquefaction of loose gassy sand under monotonic loading - an effective stress approach -- 31.3. Estimating the in-situ cohesion of Tehran coarse grained cemented alluviums -- 31.4. Determining the stress history of overconsolidated glaciomarine clay; an oedometer test study -- 31.5. Geomechanical behaviour of stiff clays and mudstones as caprocks for geological sequestration of CO<sub>2</sub> -- 31.6. Estimating liquefaction-induced lateral displacements for level ground with a free face from SPT or CPT data. Session 32.1. A review and assessment of the carbon geochemistry and hydrogeological characteristics of a coalbed methane exploration area, SE British Columbia -- 32.2. Numerical modelling of a saline plume in the Mannville Group aquifer, Alberta basin -- 32.3. Origin of anomalous high sulphate groundwater in the carbonate rock aquifer - southern Manitoba -- 32.4. Uranium depositional controls at the Prairie Flats surficial uranium deposit, Summerland, British Columbia -- 32.5. Using isotopic and geochemical characteristics of groundwater to determine the extent of denitrification under a manured field in southern Alberta, Canada -- 32.6. Soil and groundwater characteristics of CFB Shilo ranges, Manitoba -- Session 33.1. Full scale tests on grillage anchor foundations for high

voltage transmission lines -- 33.2. Foundation design in floodplain geology at Canmore, Alberta. Session 33.3. Dynamic response analysis of foundations for vibration-sensitive equipment -- 33.4. Deflection (strain) based haul road designs -- 33.5. Installation of sensors and measurement of soil suction below thin membrane surface pavements in Saskatchewan -- 33.6. Recycling of shredded rubber tires as road base in Manitoba: a case study -- Session 34.1. Challenges in sustaining water well infrastructure on the Canadian prairies -- 34.2. Comparative study of methods for well head protection area delineation in fractured rocks -- 34.3. Defaults de scellement des piezometres, courts-circuits hydrauliques et consequences (inadequate sealing of monitoring wells, hydraulic short-circuits and consequences) -- 34.4. Effects of purging on groundwater analyses: a case study in Alberta -- 34.5. The applicability of shock chlorination to reduce coliform exposure in drinking water wells. Session 34.6. Groundwater aspects of Canadian assisted development, Tibet -- Session 35.1. Conceptual model for the structurally complex, bedrock-controlled groundwater flow system on the southern Gulf Islands, British Columbia -- 35.2. The role of groundwater in the montane ecoregion, Canmore corridor, Alberta -- 35.3. Focused groundwater recharge under micro depressions on hummocky terrain -- 35.4. Variability in the barometric efficiency of quaternary till deposits at a site near Edmonton, Alberta -- 35.5. Numerical modelling to determine the effects of artesian bedrock conditions on gravimetric water contents in Lake Agassiz clay -- 35.6. Determination of groundwater age using CFCs at the Thornton well field, Woodstock, Ontario -- Session 36.1. An account of geotechnical risk and reliability -- 36.2. Risk in static and seismic slope stability evaluation. Session 36.3. Risk of landslide-generated tsunamis for the coast of British Columbia and Alaska -- 36.4. Carbon monoxide poisoning from blasting operations in construction works -- Session 37.1. Pilot test of a shatter trench concept -- 37.2. Pressure pulse technology (PPT): a revolutionary fluid flow technology for porous media -- 37.3. Freeze separation for treatment of salt-contaminated groundwater -- 37.4. Modelling the water budget for a peat filter using soilcover: a soil-atmosphere flux model -- Session 38.1. Case history of the design, construction and performance of a below-slab heating system -- 38.2. Abandonment and reclamation of the Steep Rock Iron Ore Mine at Atikokan and the related Hardy and West Arm No. 1 dams -- 38.3. Foundation design flexibility of re-usable, one-piece reinforced concrete arches -- 38.4. An internet-GIS based geotechnical data sharing and analysis system. Session 39.1. Performance of a pile in a layered system subjected to a seismic type base excitation -- 39.2. The numerical simulation of seismic surface waves -- 39.3. Influence of plasticity on the seismic behavior of tunnels -- 39.4. Simplified geostatistical analysis of earthquake induced ground response at the treasure island -- Session 40.1. Use of stable Pb, 180 and D isotopes for investigating acid rock drainage (ARD) at the Sullivan Mine, British Columbia -- 40.2. Numerical simulations of acid rock drainage in the

Sugar Shack south rock pile, Questa Mine, New Mexico, USA -- 40.3.  
Field investigation of natural attenuation of mine drainage-borne zinc in shallow soils over permafrost, central Yukon, Canada -- 40.4.  
Hydrogeochemistry of an unsaturated waste rock pile, Key Lake, Saskatchewan -- 40.5. Modeling field performance of sub-aerial tailings deposition. Session 40.6. Investigation of tailings resuspension under a shallow water cover -- 40.7. Wind-induced waves and resuspension in two mine tailings ponds -- 40.8. Unsaturated flow in layered cover systems: a comparison between numerical and field results -- 40.9. Field and laboratory characterization of a desulphurized tailings cover system.

**Title:** The Alberta-Pacific Environment Impact Assessment Review Board public hearing filed documents at Edmonton, Alberta, November 30, December 1, 2 & 4, 1989

**Library:** NEOS (includes U of Alberta)

**Publication Information:** Edmonton, Alta.? : The Board, 1989

**Physical Description:** 4 v

**Contributors:** Alberta-Pacific Environmental Impact Assessment Review Board.

**Notes:** Supplied title

**Contents:** J-39. The importance of conserving biological diversity through a system of protected areas in northern Alberta / Quinn, Michael S -- J-44. Answers to your questions about our proposed Alberta pulp mill / Alberta-Pacific Forest Industries -- J-58. A preliminary assessment of downstream effects : a brief examination of the toxic effects in relation to upstream pulp mill developments : forming annex 3 / Northwest Territories -- J-60. Thinking globally : the Alberta-Pacific proposal in perspective -- J-63. Water quality and fisheries issues pertaining to pulp mill developments on the Peace-Athabasca River system / Paetz, Martin J / Integrated Environments Ltd -- J-69. Questions on uncertainty in the Athabasca River oxygen analyses / McBean, Edward A -- J-74. Comments on potential aquatic ecosystem impacts of the proposed Alberta-Pacific bleached kraft pulp mill in the Athabasca-Lac La Biche region / Dixon, D. George -- J-90. Boreal forests : Canadian integrity at risk / Sloan, Frank -- J-92. Alberta-Pacific Forest Industries Inc. pulp mill effluent treatment plant : 3605-D, area 17 pre-design report : confirmation of process design for detailed design, November 1989 / Stanley Associates Engineering -- J-93. Alberta-Pacific Forest Industries Inc. submissions to the December 4, 1989 technical session -- J-93. Dioxins - disaster or diversion / Leach, John -- J-93. Toward preventing the formation of dioxins during chemical pulp bleaching / Berry, R.M -- J-93. General overview of chlorinated dioxins and furans -- J-93. Biological risk assessment for 2,3,7,8-tetrachlorodibenzo-p-dioxin / National Council of the Paper Industry for Air and Stream Improvement -- J-93. Effects of treated pulp mill effluent on the Athabasca River / Craig, Gordon R / Beak Consultants Ltd -- J-97. Environmental assessment of logging operations in timber berth 408, Wood Buffalo National Park, 1987-1992 / Eccies, T. Ross / Delta Environmental Management Group Ltd, Canadian Forest Products Ltd. July 1988 -- J-98. Canadian Forest Products High Level Division environmental impacts and mitigating measures for annual operating plan in Wood Buffalo National for the period November 1, 1988 to March 31, 1989 / Canadian Forest Products Ltd -- J-100. Sampling methodology for vegetation monitoring in cutover areas of timber berth 408, Wood Buffalo National Park / Canadian Forest Products Ltd, Delta Environmental Management Group Ltd -- J-101. Water quality monitoring program Wood Buffalo National Park (draft) -- J-102. Greenprint for Canada : a federal agenda for the environment / Greenprint for Canada Committee.

**Summary:** This study represents the second year of data collection to describe fish populations and habitats prior to evaluating the effects of land-use on these resources. Four new watersheds were sampled in 1999. These watersheds included Lynx, Fish, and Anderson creeks and the upper Erith River watershed. Fish community compositions, abundance, sizes, habitats and watersheds were described for each watershed. Brook trout and bull trout distributions and abundance differed between the monitoring watersheds in 1999. Rainbow trout population density estimates were also collected from Wampus and Deerlick creeks at locations that have been sampled for the previous 30 years. The densities for the 3 most accessible of the 4 sites on these creeks were lower than seen in previous years. Although natural variability of fish populations or changes to habitats from industrial land-use were potential explanations for this decrease, we suspect that illegal angling has been occurring and was likely contributing to this change.

**Title:** Cold Lake - Beaver River water management study / prepared by Planning Division, Alberta Environment.

**Library:** NEOS (includes U of Alberta)

**Publication Information:** Edmonton : Planning Division, Alberta Environment, 1983.

**Physical Description:** 8 v. : ill (some col.), maps ; 28 cm.

**Contributors:** Bradley, F.  
 Alberta. Alberta Environment.  
 Alberta. Water Resources Division.  
 Alberta. Environmental Engineering Support Services. Planning Division.

**Other Titles:** Beaver River Cold Lake report.  
 Ground-water resources, Cold Lake - Beaver River Basin.  
 A modelling study of groundwater allocation in the Cold Lake - Beaver River basin.  
 Withdrawal demand and assessment.  
 Withdrawal water demands Cold Lake Beaver River Basin.  
 Beaver River - Cold Lake regional water resources study water balance model.  
 Fisheries studies Cold Lake - Beaver River study area.  
 Fisheries studies Cold Lake - Beaver River : detailed data report.  
 The fish and fisheries of the Cold Lake - Beaver River Basin : their status and utilization.  
 Water related wildlife resources in the Beaver River watershed.  
 Water based recreation.  
 Cold Lake - Beaver River regional water resources study.  
 Ecological inventory of lake shorelines.  
 An ecological inventory of shorelines of selected lakes in the Cold Lake region.  
 A trophic assessment of nine lakes in the Cold Lake Region : interim report.  
 An approach for assessing the impact of lake level fluctuations on lake trophic status.  
 River water quality assessment : Cold Lake - Beaver River regional water resources study water quality component.

**Notes:** Submitted by Alberta Environment, Water Resources, Management Services to Hon. F. Bradley, Minister of Environment.  
 V.2 has 4 folded maps in pockets.

**Contents:** V. 1: Main report -- v.2: Water supply; App.A. Beaver River Cold Lake report; App.B. Ground-water resources, Cold Lake - Beaver River Basin; App.C. A modelling study of groundwater allocation in the Cold Lake - Beaver River Basin -- v.3: Withdrawal demand and assessment; App.D. Withdrawal water demands Cold-Lake Beaver River Basin; App.E. Beaver River-Cold Lake regional water resources study water balance model -- v.4: Fisheries; App.F. Fisheries studies Cold Lake-Beaver River study area: volume I review of the potential effects of water level fluctuation on fish populations in waterbodies in the Cold Lake Region; App.G. Fisheries studies Cold Lake-Beaver River: volume II detailed data

report. V.5: Fisheries and wildlife; App.H. The fish and fisheries of the Cold Lake - Beaver River Basin: their status and utilization; App.I. Water related wildlife resources in the Beaver River Watershed -- v.6: Recreation; App.J. Water based recreation - Final report - Cold Lake-Beaver River regional water resources study -- v.7: Ecological inventory of lake shorelines; App.K&L. An ecological inventory of shorelines of selected lakes in the Cold Lake Region, volume I and II -- v.8: Water quality; App.M. A trophic assessment of nine lakes in the Cold Lake Region - interim report; App.N. An approach for assessing the impact of lake level fluctuations on lake trophic status; App.O. River water quality assessment - Cold Lake-Beaver River regional water resources study water quality component.

**Title:** Water demand study : historical and current water uses in the Saskatchewan-Nelson Basin / Prairie Provinces Water Board.

**Library:** NEOS (includes U of Alberta)

**Corporate Name:** Prairie Provinces Water Board (Canada)

**Publication Information:** Regina, Sask. : Prairie Provinces Water Board, 1982.

**Physical Description:** xiii, 147 p. : ill., maps (some folded, col.) ; 28 cm.

**Contributors:** Alberta. Dept. of the Environment. Planning Division.  
Saskatchewan-Nelson Basin Board. Water supply for the Saskatchewan-Nelson Basin.

**Other Titles:** Historical and current water uses in the Saskatchewan-Nelson Basin

**Notes:** Companion to earlier study by the Saskatchewan-Nelson Basin Board, Water supply for the Saskatchewan-Nelson Basin, 1972.  
Accompanied by 6 appendices in 5 vols. containing detailed information on water use and the regional economic base.  
This study was conducted under the direction of the Committee on Water Demand which was established on Nov. 13, 1975. Alberta was represented on the committee by Planning Division, Alberta Environment.

**Contents:** App.1. Regional economic base -- App.2 v.1. Municipal and industrial water uses -- App.2 v.2. Municipal and industrial water uses -- App.3. Agriculture water uses -- App.4. Power generation water uses -- App.5. Recreation water uses -- App.6. Environmental considerations.

**Summary:** Water demand study completed in 1982. Deals with municipal, industrial, and agricultural water uses and with instream requirements for energy generation, recreation, and fish and wildlife habitat. The basin covers areas of Alberta, Saskatchewan and Manitoba.

**Subjects:** Water use -- Saskatchewan River watershed.  
Water use -- Nelson River watershed.  
Water consumption -- Prairie Provinces  
Water-supply -- Prairie Provinces  
Saskatchewan-Nelson Basin

**Title:** A Collection of information on the hydrology of the Peace-Athabasca Delta Peace-Athabasca Delta Project.

**Library:** NEOS (includes U of Alberta)

**Corporate Name:** Peace-Athabasca Delta Project.

**Publication Information:** Canada : [s.n., 1972]

**Physical Description:** 3v. : ill., maps ; 29 cm.

**Series:** Peace-Athabasca Delta Project

**Contributors:**Peace-Athabasca Delta Project Group (Canada)

**Other Titles:** Peace-Athabasca Delta Project

**Contents:** v.1 - Hydrological reports.-- v.2 - Hydrological data.-- v.3 - Hydrological maps.

**Summary:** Forty-eight unpublished items in three volumes. V.1- Hydrological reports include water balance in Lake Athabasca and the Delta, review of the hydrology and hydraulic program for the Delta, effects of Bennett Dam, strategies for water management in the North, etc. V.2 - Hydrological data contain tables of lake volumes, water levels, inflow and outflow, ice thickness, etc. V.3- Hydrological maps. 43- Peace-Athabasca watershed and Delta area, 1970, 26 x 43 cm. 44- Hydrometric network, 1971, 43 x 67 cm. 45- Ice thickness and depth of water study for winter ecology, 1971, 85 x 133 cm. 46- Locations of transects, river profiles,etc., 1972, 87 x 134 cm. 47- Limnological survey sample sites, 1971, 22 x 28 cm. 48- Graphs of river bed profiles and channel soundings..., 51 x 286 cm. All folded to fit 29 x 26 cm. envelope.

**Contributors:** Canadian Broadcasting Corporation  
**Summary:** "At the centre of Canada's vast northern watershed that drains into the Arctic Ocean is one of the greatest freshwater deltas on Earth - the Peace-Athabasca Delta. Upstream, along the Athabasca River, hidden underneath the boreal forest and muskeg wetlands, is one of the richest oil deposits in the world. The United States government recently declared Alberta's oil sands to be 'proven oil reserves.' Consequently, the U.S. upgraded its global oil estimates for Canada from five billions to 175 billion barrels. Only Saudi Arabia has more oil. The U.S. ambassador to Canada has said the United States needs this energy supply and has called for a more streamlined regulatory process to encourage investment and facilitate development."

**Title:** Walleye studies in the Peace-Athabasca Delta, 1978 / by John Kristensen (LGL Limited) for Fisheries Subcommittee, Peace-Athabasca Delta Monitoring Committee.

**Library:** Bow Valley College

**Authors:** Kristensen, J.

**Publication Information:** [Alberta] : Alberta Peace-Athabasca Monitoring Committee, 1979.

**Physical Description:** vii, 54 p. : ill., maps ; 28 cm.

**Contributors:** L.G.L. Limited, Environmental Research Associates.

Alberta. Peace-Athabasca Delta Monitoring Committee. Fisheries Subcommittee.

**Summary:** Study to locate, assess and compare walleye spawning areas and to compare walleye found in the various areas and their contribution to the commercial fishing industry of Lake Athabasca.

**Technical Report Number:** CA2AL EN720 79W14

**Subjects:** Fishes -- Peace River watershed (B.C. and Alta.)

Fishes -- Alberta -- Athabasca River.

Fishes -- Wood Buffalo National Park.

Walleye (Fish)

Peace-Athabasca Delta (Alta.)
